

## Element sauna in modern-fashion style

The sauna Spring is the ideal solution for a sauna in your living area or fitness room.

Installation of the sauna will be a swift task. The cabin consists of 14 prefabricated elements including the wiring. The high-quality heater Apollo which is integrated in the Spring-Relax interior generates a mild and typical sauna climate. It operates in a highly efficient way regarding the consumption of energy.

- Outside: 2 visible sides covered with high-quality furniture plates, beige coloured, 12,5 mm Nordic spruce on non-visible sides
- Inside: 12,5 mm nordic spruce panelling
- With lavish glass front in tinted glass (all-glass door and 3 glass elements)
- Exclusive interior "Spring Relax" in Abachi and Mahagony
- With hidden lights behind the rounded back element
- Apollo heater
- Control unit KH5
- 3 sauna benches 50 / 60 cm wide
- 2 backrests ("Relax"), 2 exclusive headrests, duck board, heater guard rail with three sides, bench aprons ("Relax"), two coloured light column in rounded shape with ceramic holder, silicone cable (integrated in sauna walls)
- The cabin can also be produced in a mirrored version

Lavish glass area will allow the free view into the bathroom or into the garden through an external window

Design, optics and functionality balanced perfectly.
